### SUPPLIES

- sewing machine
- 1 inch elastic
- knit fabric
- scissors

Print out your pattern and assemble. Cut out fabric pieces along a fold and perpendicular to the stretch of your knit. Refer to the diagram above.

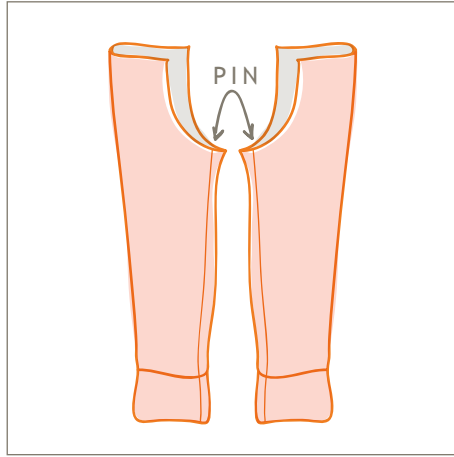

Turn fabric wrong-side out and sew along side seams. Do the same for the cuffs.

Turn each piece right-side out and press seams. Fold the cuffs in half, so the ends of each seam meet together. The wrong side of the fabric should not show on the cuffs.

Attach the cuffs to the leggings by pinning right sides together and sewing along the edge. Turn cuffs over and press seams.

### SUPPLIES

- sewing machine
- ½ inch elastic
- knit fabric
- scissors

With your leggings right-side out, pin the legs together, starting with the inseam. Match the inseam together and pin out to each side.

Once you've finished pinning, sew along the two edges. Turn right-side out and press the seam.

Cut a 16 inch length of your elastic. Zig zag stitch ends together. Pin to the right side of the waist of your leggings and sew with a small zig zag stitch.

Turn the elastic over and press along the seam. Zigzag stitch the elastic into place.

### OPTIONAL

You can easily adjust this pattern to different sizing by using old leggings as a guide.
